

S/N 10/781,424
Amendment A

Page 2

In the Claims:

1. (Currently Amended) A method for the treatment of patient medical conditions comprising the steps of:
diagnosing the specific medical condition to be treated by a physician;
providing by said physician to the patient a medical pack having a predetermined amount of medical supplies and medication wherein said predetermined amount is sufficient to treat said medical condition for a predetermined time period;
treating said medical condition by said patient for said predetermined time period; and
returning said medical pack to said physician by said patient after said time period[.]; and
evaluating said medical pack by the doctor for compliance for treatment of said medical condition by patient by monitoring the usage of said medical supplies and medication in said medical pack.
2. (Previously Presented) The method of Claim 1 wherein said medical packs contain written or photographic instructions for said patient on how to treat said ailment at home.
3. (Previously Presented) The method of Claim 1 wherein said medical packs contain a sheet for additional instructions from said physician to said patient.
4. (Previously Presented) The method of Claim 1 wherein said medical pack contains a log sheet for the patient to record said medical supply and said medication use and date of use.
